

Download The Magnesium Solution For High Blood Pressure The Square One Health Guides

Blood pressure numbers creeping up? You might be able to beat 'em back down with beet juice. One small study found that, compared with subjects who drank water, those who drank a serving of beet juice had a drop in blood pressure just one hour later. Exercise can lower blood pressure and reduce visceral body fat at least as effectively as many common prescription drugs, two new reviews report. Browse the WebMD Questions and Answers A-Z library for insights and advice for better health.
